

Dear Naugatuck Education Foundation,

It has been a wonderful experience to organize a club at City Hill Middle School that has successful news. Without your help, we would have not made it this far. We, the Newspaper Club, are really grateful for your thoughtful gifts and dedication. It has sincerely motivated us to do more than we have ever imagined. In other words, we would like to give you our word of thanks. Thank you for creating more opportunities that have never been offered to us. Students are more eager to work their hardest and we have dedicated a lot of our time during school and after school to make our online news site successful. Our thanks goes to all the dedicated staff and wonderful people who have done all that could be done to make us a successful organization for our school. Thank you for your generosity and kindness that have gotten us to the places we have never been. Without your help, I don't know where we would be right now, so thank you so much for all that you have done to help us.

In addition, we would like to update you on our recent activities with the technology to support and strengthen our 21st century skills. Earlier this year, we have utilized the camera to create segments for school news, to take pictures of sports events, and to capture the different positive attributes our school is promoting. We have been able to use the scanner to scan our work and different documents to post onto our website. We are also able to use the two MacBooks to interview different staff members instead of writing our interviews on a piece of paper. The MacBooks are really beneficial to use during school if we need to write and post an article during study hall. The endless possibilities the Macbooks provide us not only benefit The Newspaper club, but they help up build upon the skills that will help up in the future.

We would like you to know the Newspaper Club is hard at work to get the club up and running again from last year. Along with new students that have been a wonderful help to our already strong foundation, we are working very hard to create new articles and even create news clips that two of our "tech" guys have been working on editing and publishing.

Please feel free to visit our website to see our hard work at www.chmsnews.webs.com

Again, we cannot express our gratitude towards our superb heroes that gave us a chance to shine.

Thank you. Thank you so much.

Sincerely,

Marina Sounanthanam, Nichole and Jenna Rohlman, Jillian Wheeler, Raymond Robertson, Emma Brackett, Mariah Acevedo, Jessica Sember, Angelina da Silva, Nathan Kulmann, Kaitlyn Spencer, Arshil Chowdhury, Bailey Dionne, and Vlada Kerus

*Some members didn't want their picture taken. There are many more members than the ones seen in this photograph 😊
